

THESE MERCHANTS

GIVE VOTES

In The Item, Watchman and Southern and Merchants Contest

To Item Readers:

By doing your trading with the merchants who have space on this page you will be doing two things: First--Securing votes that will help some worthy lady to secure an Automobile, a Piano, a Diamond Ring or a Gold Watch. Second--Getting merchandise that represents one hundred cents on the dollar, and service that is no more efficient anywhere. The merchants who have ads on this page are issuing vouchers on every purchase of fifty cents or over, and these vouchers may be voted for any of the candidates whose names appear in this issue of The Item, or name a lady and vote them for her. Nomination blank found in this issue.

To the Candidates:

If a representative of the contest department has not been to see you call The Item Office and get information regarding the contest. Get your friends to do their trading with the firms whose ads appear on this page, for by so doing you will get thousands of votes. "Every little purchase helps"---provided the purchase is made at one of the stores whose advertisement is listed below and the purchaser gives you the votes.
